

# Third Edition ADRs – Applicability Summary

## Goods Vehicles

1. This Table shows:
  - a. the national standards (Australian Design Rules) currently in force for new model vehicles and the vehicle categories to which they are applicable, as at the date this Applicability Summary is published (see footer and note \*);
  - b. the dates on which new national standards will come into force and the vehicle categories to which they will be applicable (light green highlighted);
  - c. earlier revisions of the national standards that may be accepted as equivalent to the standards in force for new model vehicles (refer to each relevant standard's list of acceptable prior rules); and
  - d. the national standards that have been superseded by other standards (light yellow highlighted) or withdrawn with no direct replacement (light red highlighted).

2. Australian Design Rule (ADR) notation:

ADR X/00 indicates the original version of ADR X

ADR X/01 indicates the first revised version of a standard where the amendment increases in stringency, includes additional vehicle categories, or changes content significantly. ADR X/02 is the second revision, and so on.

ADR X/..., the ellipsis ... indicates the latest version.

3. Vehicle Category Codes:

Codes for vehicle categories and definitions are in [Definitions and Vehicle Categories](#) and can be found on web page: <[http://www.infrastructure.gov.au/roads/motor/design/adr\\_online.aspx](http://www.infrastructure.gov.au/roads/motor/design/adr_online.aspx)>

(The United Nations Economic Commission for Europe (UNECE) Vehicle Category Codes are also shown in brackets in the Table.)

**NA - LIGHT GOODS VEHICLE** - A goods vehicle with a 'Gross Vehicle Mass' not exceeding 3.5 tonnes.

**NB - MEDIUM GOODS VEHICLE** - A goods vehicle with a 'Gross Vehicle Mass' exceeding 3.5 tonnes but not exceeding 12.0 tonnes.

**NC - HEAVY GOODS VEHICLE** - A goods vehicle with a 'Gross Vehicle Mass' exceeding 12.0 tonnes.

4. **The table is for guidance only. Users must refer to the relevant standard for the circumstances under which the standard is mandatory or optional.**

5. Symbols used in the Table:

<i>Symbol</i>	<i>Meaning</i>
X	Applicable.
*	Application date when the ADR becomes effective for the vehicle category described. This may be different between new and existing model vehicles. See relevant standard for details.
**	Application date may be different depending on vehicle category. See relevant standard for details.

6. In addition to the above national standards, Australian Design Rule – Harmonisation, facilitates the automatic acceptance of the latest version of UNECE regulations that have been adopted as alternative standards within the ADRs and have been 'applied' by Australia under the UNECE 1958 Agreement. Refer <http://www.comlaw.gov.au/Details/F2012L00336> for more information.
